ABOUT US

Experience meets with Future ..

Uctem-Plas was founded by three brothers in 1997 by following up a family business of 85 years of experience in cleaning equipments manufacturing and now serving to 75 different countries , a global actor in the cleaning sector and the sector leading well known company of TURKIYE which has the widest range of products and all produced in the same house with own designs .

Uctem-Plas is started its first activities in 1997 on a 50m2 area in İstanbul . Now continue its activities with 230 employees on a 15.000 sqm closed area with moulding , plastic injection , metal processing , brush production and textile departments . Now we are appreciated to inform you that in 2024 Üçtem-Plas is moving to its new factory which will be helded on a 60.000 sqm area.

KEEN TO THE ENVIROMENT

“WITH DAILY ACTIONS”

We are committed to taking steps towards environmental protection and sustainability, a responsibility we all share. As a company offering cleaning products, we are dedicated to maximizing our environmental responsibility and providing eco-friendly solutions.

Raw Materials:

During the designing phases of our plastic cleaning tools, our R&D departments always choose recycle raw materials which can be recycle again.

Packaging:

Our packaging is conceived with materials which easily integrated into the recycling processes system, contributing to a more sustainable world.

Energy:

In our production facilities, we place great importance on using sustainable energy sources. Working with clean energy sources such as solar and wind power helps us reduce our carbon footprint and contribute to energy conservation.

Leading in Environmental Consciousness: UTP Professional Earns Eco-Label Certification!

Environmental awareness and sustainability are fundamental values of our company. UTP Professional, conscious of its responsibility to the environment, once again demonstrates the importance it places on eco-friendly production and operational practices.

We are proud to announce that UTP Professional has earned the Eco-label certification as a result of our efforts to minimize environmental impacts. This prestigious certification confirms our commitment and success in reducing the environmental effects of our products and promoting eco-friendly practices.

By obtaining the Eco-label certification, UTP Professional strengthens its commitment to environmental sustainability. We will continue our efforts to minimize environmental impacts and efficiently utilize resources at every step from production to packaging, transportation, and product use.

We take pride in offering our customers and all stakeholders eco-friendly products. Our Eco-label certification will provide consumers with transparent information about the environmental impacts of our products and help them make eco-conscious choices.

We are delighted to offer environmentally friendly products to our customers and stakeholders. Our Eco-label certification represents our dedication to environmental responsibility and sustainability.

At UTP Professional, we take pride in our journey towards excellence, where we have attained the ISO 9001, ISO 14001, ISO 22000, and ISO 45001 certifications, setting the highest standards in quality, environment, health, and safety. These certifications reinforce our commitment and support our continuous improvement goals, strengthening our responsibility to our customers, employees, and stakeholders.

ISO 9001: Continuous Improvement in Quality

The ISO 9001 certification confirms that our quality management system complies with international standards. This certification forms the foundation of our quality management system, aiming to enhance customer satisfaction, improve process efficiency, and promote continuous improvement.

ISO 14001: Leadership in Environmental Performance

The ISO 14001 certification demonstrates that our environmental management system meets the standards. We continuously strive to reduce environmental impacts, preserve natural resources, and fulfill our commitments for a sustainable future through ongoing improvements in our environmental performance.

ISO 22000: Food Safety and Hygiene

The ISO 22000 certification validates that we adhere to the highest standards in food safety and hygiene. We meticulously follow food safety standards to provide our customers with products they can trust, while promoting a culture of food safety throughout our organization.

ISO 45001: Priority on Occupational Health and Safety

The ISO 45001 certification confirms the effectiveness of our occupational health and safety management system. We continuously assess risks, implement appropriate measures to protect the health and safety of our employees, and strive for continuous improvement in our occupational health and safety performance.

These certifications validate UTP Professional's commitment to quality, environmental performance, food safety, and occupational health and safety. As we fulfill our commitments to our customers, employees, and society, we aim for excellence.

Precise and robust application of additional parts, such as trimmings, loops etc.

WHAT WE CAN DO?

1. Color Coded Flag
2. Wings / Flap for flat mop
3. Customized Colors for any part
4. Angle pocket
5. Private label / Sticker / Logo
6. Customized Weight
7. Customized Boxes

Customer-Specific Mop logo and Coding

- All Mop types can be manufactured in special sizes and/or with customer specific mop coding or customer specific logo upon request.
- We sew customer-delivered chips into the pocket on the mat for a small extra fee.
- Color coded, private label and data system mops are included in our production.

Color Coding in Professional Cleaning

Thanks to the color code given to the mop, cross-contamination is prevented and hygienic environments are created. During the washing process, the mixing of the mops is prevented and hygienic washing results are obtained. It also eliminates storage problems by reducing color code stock costs. For our customers, we also have an extra for color code application.

Thanks to its microfiber texture, it effectively cleans dust, dirt and stains. Machine washable and reusable.

It offers effective results on different floor surfaces such as laminate, wood, ceramic, tile as usage areas.

Special for customer
In line with the demands, the mops requested by our customers are produced and

- Without Flags

Mop is a handy cleaning tool that provides excellent cleaning performance and allows you to achieve effective results on a variety of floor surfaces. Made of strong and durable materials, this mop offers a wide range of uses from homes to commercial areas. The Mop is easy to use thanks to its ergonomic

VELKRO MOP

Microfiber Fabric Composition

Made of high quality microfiber and durable plastic compound.

Thanks to its microfiber texture, it effectively cleans dust, dirt and stains. Machine washable and reusable.

It offers effective results on different floor surfaces such as laminate, wood, ceramic, tile as usage areas.

Special for customer
In line with the demands, the mops requested by our customers are produced and delivered.

CODE	WIDTH (CM)	HEIGHT (CM)	M3	WEIGHT (GR)	PIECES IN BOX	BOX SIZE (CM)	EAN	SUITABLE WITH
VM326	10	40	0.06	45	50	-	8697420953263	VM324

Available for Velcro Mop Frames

Mop is a handy cleaning tool that provides excellent cleaning performance and allows you to achieve effective results on a variety of floor surfaces. Made of strong and durable materials, this mop offers a wide range of uses from homes to commercial areas. The Mop is easy to use thanks to its ergonomic

HYGIENIC

UTP mop systems ensure the highest level of hygiene; thanks to the touch-free removal system, the flat mop can be easily removed without hand contact. Preventing direct contact with dirt ensures maximum control of cross-contamination.

ANTI BACTERIAL

UTP mop systems effectively collect dirt and easily clean over 95% of bacteria. They effortlessly clean corners, stairs, and skirting boards. The system has no limits and can be used to clean both horizontal and vertical surfaces, ensuring high performance in both cases. These features provide maximum efficiency and hygiene in the floor cleaning process.

ERGONOMIC

Utp mop systems that allows for easy attachment and removal of the mop head or cleaning cloth helps to conserve the user's time and energy. The quick assembly feature facilitates the effortless changing of mop heads or cloths during cleaning. This ensures that users do not feel fatigued even during prolonged cleaning tasks.

WINDOW TOOLS

Most Effective Window Cleaning!

Our highest quality microfiber cloths gently clean dirt and stains from glass surfaces, minimizing the risk of scratches and leaving a smooth finish. Our glass scrapers, ideal for removing tough stains and sticky residues, are made from high-quality materials to ensure safe and effective cleaning. Our telescopic cleaning tools provide easy access to high glass surfaces with extendable handles and interchangeable cleaning heads, making it easier to clean glass surfaces at different heights. We prioritize quality, reliability, and innovation to maximize customer satisfaction. Our products have the power to handle even the toughest glass cleaning tasks with ease. As a leading brand in professional glass cleaning, we are constantly working to provide our customers with the best service. Glass cleaning is now easier and more effective than ever!
